polarized lenses

GREEN LENS

A Green sunglass lens is ideal for your activities and needs.

Green sunglass lenses will enhance your vision by:

- Maintaining good colour perception
- Improving contrast
- Reducing glare, while also brightening shadow
- Green is a good general-purpose lens colour

Even better, a **polarized Green** lens provides the additional enhancements to your vision:

- Blocks dangerous and uncomfortable blinding glare
- Delivers greater depth perception
- Substantially enhances contrast
- Provides more precise and detailed vision
- Colours are more vibrant

GREEN LENS STYLES

NUPOLAR[®]
solid

Green

NuPolar solid polarized lenses are an even and solid colour over the entire lens and provide 100% UV blockage.
